Day is for
Healthy, Happy Citizens**

ANNUAL

RED CROSS CAMPAIGN

1925

This autumn comes your chance to HELP RED CROSS FOR
BETTER CONDITIONS.

You will be asked to support the following services:

IN OUTPOST HOSPITALS—1,535 Patients nursed, 355 Babies born.

IN SCHOOLS—15,000 Children enrolled for Health.

IN IMMIGRANT SERVICES—739 Settlers' Families saved.

Through the JUNIOR RED CROSS—425 Crippled and Sick Children
cared for.

In HOME NURSING—50 Districts Served with classes for Mothers
and Home-Makers.

In HEALTH EDUCATION—Lectures by Radio, by Lantern, Lit-
erature by mail.

JOIN THE SERVICE FOR HUMANITY

Give the Sick Child a Chance,
Safeguard the Settler from Ill Health,
Protect the Prospective Mother,
Educate All Children in Health.

THE WAY TO HELP By a Contribution to Red Cross Funds
By a Red Cross Dance or Entertainment
By a Donation of Grain.

Alberta Division Canadian Red Cross Society.

Traders' Building, Calgary Alberta.

Mrs. Nellie McClung Will Address Electors

**Championites Will Have the Opportunity of Hearing This
Talented Lady in Campbell's Hall on Monday After-
noon, October 26th, at 3 p.m.**

The electors in this vicinity, especially the ladies, will have an exceptional opportunity on Monday, October 26th, when Mrs. Nellie McClung, M. L. A., will speak in Campbell's hall at three o'clock in the afternoon. Everyone has heard of Mrs. McClung and her ability on the platform and her visit here will be welcomed as a real event. In this instance Mrs. McClung will speak in the interests of Jesse Gouge, Liberal

candidate for Bow River, but outside its political significance her address will prove of educational value to everyone and as the capacity of the hall will be taxed to the utmost everyone is urged to be on time. Naturally the ladies will have the preference as far as seating capacity but by being on hand promptly confusion will be avoided. Remember the day and hour, Monday, Oct. 26, 3 o'clock sharp.

A Restricted Hallowe'en

The action of the Village Council in giving notice that damage of property on Hallowe'en night will be followed by prosecution will meet with general approval. A certain amount of possibly annoying tricks are endured quietly to afford a night of liberty to the children and boys, but in Champion liberty had given way to license and serious damage to property has resulted. Real fun is permissible, but when even fun becomes obnoxious it is time to interfere. Very few are in a position to have their property destroyed to provide amusement, especially for big boys.

Farmers in the province who intend exhibiting seed grain at the International Hay and Grain Show at Chicago in November are reminded that their entries should be in the hands of the officials of the Department of Agriculture at Edmonton not later than November 3, in order that they may be in the proper hands at Chicago in plenty of time. The actual exhibits should be shipped to the Provincial Seed Cleaning Plant at Edmonton for shipment to Chicago.

Speaking from his general knowledge conditions, Leslie H. Boyd, K. C. chairman of the grain board of Canada, predicts that about 65,000,000 or 70,000,000 bushels of export grain during the shipping season of 1925-26.

Three contingents of British farm boys are en route across the Atlantic for the Alberta agricultural schools. Advice to the department of agriculture state that a party of 20 left October 9, on the steamship Regina, for the Vermilion school, 21 on the same date, S. S. Montclair, for Olds, and 24 on October 10, S. S. Ansonia for Claresholm. In each case the parties are routed through direct to the three schools. It is expected that with the British boys, the registration at the three Schools of Agriculture this year will run close to 400.

W. J. Douglas Here Monday

W. J. Douglas, Conservative candidate for Bow River and others will address a meeting in McCullough's hall on Monday evening, Oct. 26th, beginning at 8.15 o'clock. Everyone invited.

Sale of Poppies Armistice Day

The distribution of Vetreft Poppies as the "Flower of Remembrance" this year on Armistice Day will assume proportions far in excess of any year since the institution of the custom. Orders received by the G. W. V. A., which acts as distributing agent for Vetreft Poppies, are now in excess of the total distribution last year by several hundred thousand. Approximately a million poppies were worn by Canadians last Armistice Day. This year it is estimated that the total distribution will exceed a million and three quarters.

A surprise party in honor of Flora Gill, who leaves for the coast shortly, was held at the home of Mrs. Geo. Taylor on Friday last. Seventeen little girls each presented the guest of honor with a handkerchief, and a very pleasant time was spent by the guests. Mrs. C. Williamson assisted Mrs. Taylor in entertaining the party.

Better exports via Montreal are more than twice as heavy so far this year as they were in 1924, and the movement of cheese is also larger, although not in the same proportion.

Two trains, totalling 114 cars, left the Union Stock Yards, St. Boniface, on the morning of October 14 for Montreal and eastern markets via the Canadian National Railway. According to terminal officials of the railway, this is one of the largest, if not the largest, shipment of livestock ever made in one day from these yards.

Leather Coats

These short Leather Coats are fast taking the place of the Vests. The nicely shaped coat collar is a decided improvement as well as giving a snappier appearance. They fit like a sweater.

Quick Quaker Oats

The Big Premium Package with the lovely Chinaware are again in stock. Buy 5 or more and get the special price.

Southern Alberta Honey

Quebec and Ontario may have the best maple syrup but Southern Alberta takes the cake for the finest Clover Honey. 5 Lb. pail \$1.15.

Big Red Apples

For Hallowe'en, and Pumpkins, Spanish Onions, Sweet Potatoes, and other novelties suitable for the occasion.

CAMPBELL'S

"Where They All Go."

**Friday @ Saturday
Oct. 23-24**

"The Thundering Herd."

**Friday @ Saturday
Oct. 23-24**

The horses took their bits between their teeth and ran headlong. Milly had to slack the reins or be pulled out of the seat. They plunged into the rear of the moving buffalo, to make no impression otherwise than to split the phalanx for a few rods and be kicked from all sides. Here the horses reared, plunged, and sent out above the steady roar a piercing scream of terror. Milly had never before heard the scream of a horse. She could do nothing but cling to the loose reins and the wagon seat, and gaze with distended eyes. A violent jolt nearly unseated Milly. See what happened in the great Paramount picturization of "The Thundering Herd." THOUSANDS OF BUFFALO. HUNDREDS OF INDIANS.

Coming Next Friday and Saturday, Harold Bell Wrights, "A Son of His Father."

Voting

Throughout Canada on October 29 the question, "Have you voted yet?" will be asked not once but thousands of times. What the questioner will mean, of course, is have you exercised your franchise? That is the expected meaning, but it there not a much deeper, more significant meaning? Do you *mean* "vote," or is just make a ballot paper? There is a vast difference between the two.

Admittedly it is a duty every elector owes his country to exercise his or her franchise when called upon to do so. It is just as much a duty as paying taxes or obeying the law, even though no penalty is imposed for non-fulfillment of the duty.

Electors will be urged to "vote early," and this is good advice because there are always people who will leave the performance of this duty to the last minute, while circumstances may force others to do so. Everyone who can should, therefore, go to the polls as early as possible on election day. But while making haste to the polling booth, do not be hasty in your act of voting.

To come back to the original question: are you really going to vote or merely make a ballot paper?

Are you going to vote Conservative, or Liberal, or Progressive because your father or grandfather voted that way, or because some friend or relative is so voting, or because the majority of people in your neighborhood intend to do so and you wish to be with the "real majority"? If, you are not voting at all, but just making a ballot paper.

Are you going to vote for a particular party solely because you voted for it on previous occasions and you propose to be "consistent"? Consistent to what? A party name? A political policy which may have appealed to your forebears or yourself in years gone by and which were designed to meet then existing conditions but which do not necessarily have any force or bearing in 1929?

Perhaps it is your intention to vote for a certain candidate regardless of the party or policy he supports solely because you know him and like him—although you may not know him, you do not like the opposing candidate or candidates.

Again, it may be that you are influenced in your decision as to how your ballot paper will be marked by some purely local or sectional consideration which has little or no bearing on the welfare of Canada as a whole.

It may even be that some people have decided to mark their ballot papers in a certain way to show more worthy object in view than to "kill the vote" of somebody else who they do not like but who they understand intends to vote the opposite way.

Not one of these are reasons supporting an intelligent exercise of a "ballot paper," nor are the motives actuating such marking ones worthy of an intelligent, patriotic Canadian citizen. Such conduct cannot honestly be dignified as "voting"; it is merely ballot paper marking, and, so far as Canada is concerned, worthless.

Stop and consider. On October 29 you are not voting primarily for a candidate or a party; you are voting for Canada, or ought to be. Parties and candidates are but the means to an end, but it is Canada, its welfare and progress which should be kept constantly in mind and guide the eye and hand when marking a ballot paper in the secret and sacred precincts of the polling booth.

True, the candidate beside whose name you place a cross is your choice to represent you in the Parliament of the Dominion for the next four or five years. True, the election or rejection of that candidate will have a bearing on the issue as to which party will be entrusted with the responsibilities of government and of formulating the policies and directing the administration of the Dominion.

But these two facts—the really vital issues—are big enough to call forth the exercise of every elector's best judgment unswayed by any of the petty, inconsequential, yet, altogether unworthy, considerations and motives which, unfortunately, are sometimes allowed to sway the feelings of people in times of election excitement.

If you were a shareholder in a large commercial enterprise attending the annual meeting of the company for whom you would vote as director—would you support policies which would result in increased business success and larger profits, or would you reject such plans for some trivial reason or personal prejudice? Then remember on October 29 that you are a shareholder in the greatest of all great Canadian concerns, Canada itself, and that you are choosing your board of directors.

On election day, really vote, and do not just mark a ballot paper. Instead of hurrying into the polling booth and hastily scribbling a cross opposite a name, stop with pen and pad and ask yourself: What is the best service I can render my country today? Then VOTE as your judgment and conscience dictates. This is the essence of good citizenship.

The great man doesn't think great thoughts exclusively. He just thinks fewer small ones.

Soviets Buy Canadian Wheat

Orient Has Also Given Bookings For Large Quantities

The Soviet Government, of Siberia, at Chita, placed orders in Winnipeg for 10,000,000 bushels of Canadian wheat, to go out via Pacific port.

Besides this wheat for Chita, the Orient has booked 5,000,000 bushels of wheat and large quantities of flour with Winnipeg companies through Vancouver. It is estimated more than 100,000 bushels of Canadian flour left Vancouver for the Orient during the past thirty days.

An Oil Without Alcohol—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of its essential oils compose Dr. Thomas' Electric Oil and there is no alcohol in it, so that its effects are lasting.

Alberta Motor Cars

More than 52,000 cars are operating in Alberta this year, compared with something over 47,000 in 1924. The total receipts from car licenses this year this year have been \$112,000 compared with \$145,000 for the entire year of 1924.

Claims Dominion Has

Greatest Opportunity

Editor of London Paper Advises Canada To Pick Best Immigrants

"Canada has the greatest opportunity of any community on the face of the earth," stated J. St. Louis Strachey, editor and proprietor of the London Spectator, in the course of a recent address to members of the Canadian Club at Ottawa.

A great part of the world wants to pour into Canada," he declared, referring to the building up of the country by immigration. "Pick out the best of it, and leave the drudge."

Conditions in Great Britain were satisfactory, and he wished to improve this, emphatically on the people of Canada. "High taxation has awakened us from a period of indolence and somnolence."

NERVOUS DEPRESSION

Why People are Low Spirited and Depressed

Nearly all women and most men suffer at times from nervous depression and low spirits. Everything seems a burden, and the mind is full of gloomy thoughts, irritability, headaches and weariness.

People who suffer this way feel listless, because their blood is poor and nerves are starved in consequence.

Only one way the nerves can be reached is through the blood. By enriching the blood with the nerves can be reached is through the blood. By enriching the blood with the nerves can be reached is through the blood.

Dr. Williams' Pink Pills for Pale People is the only medicine that will reach the blood and enrich it with the blood. By enriching the blood with the nerves can be reached is through the blood.

PAUL IN EPHEBUS

Golden Text: For the love of money is a root of all kinds of evil. 1 Timothy 6:10.

Lesson: Acts 18:18 to 19:41.

Devotional Reading: Isaiah 55:1-13.

Nobel Prizes Total About Four Million

Germany and France Head List With England Third

Prizes of about \$4,000,000 given to 125 winners will be the record this year. Nobel Prizes were awarded on the occasion of the 25th annual awarding of prizes at the end of this year.

Funds of the foundation now amount to slightly over \$5,000,000, and the prizes to be given this year will be \$13,165 kroner each, or about \$16,000. Twelve of the five regular prizes of 1925, three were held over from 1924, namely, the awards in physics, chemistry and the peace prize. Of the prizes awarded during the years 1901-1924 nine have gone to America and seven to Sweden. Germany tops the list with 25 prizes, closely followed by France with 21 and England with 14 awards.

Cold on the Chest

Best Treated This Way

When the throat is sore, and the chest is full of congestion, something strong enough to penetrate through the tissues must be applied. To get the quickest relief, apply good old Nerveine. Rub it in deeply, until the chest is warm, and it will bring the blood to the surface, will loosen the inflammation and cure your cold and make you well in a short time. No other liniment soothes so quick the itching, sore throat and relief as reliable old Nerveine. Nearly fifty years of use, and sold in most countries throughout the world in large 35¢ bottles.

Visits Balmoral Every Year

Matron of London Hospital Spends Fortnight With Queen Mary

As a reward for services without the payment of a lease visit by Miss Agnes Kerr to the King and Queen at Balmoral.

She stays for a fortnight or three weeks, and accompanies the Queen on most of her walks in the grounds, as well as longer expeditions. No other woman subject of any rank is honored by the Sovereign in just that way; she can truly be said to be regarded as one of the family during the stay.

For many years Miss Kerr, or, as she is preferred to be called, "Sister Agnes," has been matron of the King Edward VII. Hospital for Cancer, Incurable Cancer, London.

When Prince George had to undergo an operation three years ago it was there he went and when members of the royal household require to go to hospital they choose that managed by Sister Agnes.

In Persia it is the custom of the Shah to send a gift of a horse to a foreign minister or ambassador after the presentation of his credentials.

As a veritable gift of a horse to a foreign minister or ambassador after the presentation of his credentials.

The number of defunct crows returned to the mint at Philadelphia, Pa., to be remelted would fill five trains of 50 cars each, holding 50,000 pounds to the car.

On an average a city dweller breathes from 25 to 30 pounds of smoke and ash every year.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

An Illinois woman died recently at the age of 93, leaving 111 descendants.

Minard's Liniment for Sprains and Bruises

Substitutes For War

The world spent \$2,500,000,000 on automobiles and motorcycles last year. Almost as expensive as war and only a degree less harrowing—Philadelphia Inquirer.

Grand Duke Cyril of Russia Has Many Narrow Escapes

Grand Duke Cyril of Russia, apparently bears a charmed life.

He was blown up on board a Russian ship at Port Arthur during the Russo-Japanese War and since has had several narrow escapes, including a recent attempt to ascend the Russian throne.

Cyril was a passenger recently on the Paris-Prague express which, while running at a high rate of speed, dashed into a freight train, during a fog, 15 miles from Strassbourg, France.

Two train hands were killed in the collision and one passenger was slightly injured.

Cyril was not hurt.

Being Pinched Politely

Many of the London police fruits are said to be men of good social standing, and even college education. It is, of course, much after the run in by a man who could safely take home to tea—Punch, London.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Doer" Children With Internal Medicines to Break Colds

Children's disorders are easily up by Vicks VapoRub. "Doer" children with internal medicines to break colds.

At the first sign of a cold, use Vicks VapoRub. It is the only cold remedy that is safe for children.

NON-RESIDENCE OF CANDIDATES FOR FEDERAL CONTEST

Ottawa.—Official nomination of candidates took place in 24 of the federal constituencies between twelve and two o'clock, on Oct. 16th, and the Dominion general election now assumes a more definite form. In three constituencies of Quebec, seven of Ontario, four of Manitoba, five of British Columbia, four of Saskatchewan, three of Alberta, and the Yukon, candidates declared themselves officially, amount of \$100 with the respective constituencies. While the official nomination of a candidate does not necessarily mean that he is in the contest until the close of the poll, withdrawal involves the forfeiture of the deposit.

The constituencies in which nominations took place today cover large areas, are somewhat sparsely settled and, in many cases, are provided with but slow and primitive means of communication between the centre and the outlying districts. In the past this has resulted in deferred elections. Now, with an extra week in which to do the work and distributing the ballots, all Canada will see to the polls on the same day, October 29th.

French Casualties In Syria

Over Six Thousand Killed Or Wounded Since Campaign Started

Paris.—French losses in Syria since France took over the mandate of the League of Nations have amounted to 6,012 men killed or wounded up to July 21 last.

Premier Poincaré made this announcement to the finance committee of the chamber. He said he did not have the casualties of the August and September sieges campaign before him.

The mandate for Syria was assigned to France by the supreme council of the allied powers, April 25, 1920, and was confirmed by the League of Nations, July 22, 1920.

Giant British Dirigible

Plan to Launch and Pick Up Planes in Mid-Air

London.—When the R-23, Britain's great airship, makes its next trip, expected shortly, it will begin a series of experiments in how to pick up and drop airplanes in mid-air. The plan to be used will be a light D-53. The idea behind the experiments is to use airplanes in war as scouts for a flock of hornets to be launched from behind concealed columns of smoke to harry the enemy. The airplane like a trapdoor has been fixed below the airship to which the plane will be hooked. It will be launched from the trapdoor and it is to attach itself to the trapdoor on its return.

Will Observe Anzac Day

April 25 Will Be Complete Holiday in Australia

Melbourne.—The Legislative Assembly of Victoria has passed a bill providing for the observance of Anzac Day, April 25, as a complete holiday in that state. Anzac Day is the day on which the combined Australian and New Zealand army corps landed at the Gallipoli and gave such gallant service to the allied cause in the war. The initials of the forces of the two sister dominions were formed into the word Anzac.

Register At The Hague

Victoria.—After opening in the Peace Palace At The Hague, Holland, the register signed last May by 35,000 pupils of British Columbia schools, pledging themselves to observe the spirit of fair play and good-will among all peoples, Harry Charlesworth, secretary of the British Columbia Teachers' Federation, has returned to his home here.

Extension For Edmonton Post Office

Edmonton.—Extension to the Edmonton post office which will involve the building of a new wing may be undertaken next year by the Dominion Government. The purchase of nearby property, involving an outlay of some \$25,000 has already been authorized by order-in-council and part of this amount has been paid over.

Win Full Military Honors

Winipeg.—Winipeg citizens of all walks of life paid their last respects to Sir Gen. H. N. Rait, who was buried here with full military honors.

Japan may send six girl tennis players to the United States in 1926 for tourney play.

W. N. O. 1549

Maritimes Ask For Freight Rate Cut

Brief Prepared For Board of Railway Commission Published

Halifax.—The brief prepared by F. C. Cornell, freight rates expert employed by the three Maritime provinces to present their case to the board of railway commissioners for Canada, has been distributed here.

It asks for "special attention from a transportation point of view" in consideration of the geographical position of the Maritimes and nature of their products in comparison with those of other provinces and in view of the fact that "the prosperity of the Maritime provinces depends to a serious extent upon their ability to merchandise the products of their natural resources and their manufactured products in the central and western provinces."

The brief declares recent changes in freight rates have wiped out considerations which were justly due to the Maritimes and provided for in previous agreements. It asks for substantial reduction in added costs of freight rebating in the Maritimes for Western and Central Canada, and an freight passing through North Atlantic ports to the Maritimes.

Trade With Russia

No Early Prospects of Trade Relations Between Britain and Soviets

Ottawa.—There are no early prospects of trade relations between Britain and Russia. Britain has been re-armed with the Baldwin Government in power, declared Right Hon. Arthur Henderson, former home secretary in the MacDonald Labor Government, in an interview here.

He said it is suggested that such a happening might have distinct effects on Canada in the matter of war marketing. Mr. Henderson said that there were some possibilities in the wheat, and if Russia was to regain her large production of wheat, she would need agricultural implements, many of which Canada was able to supply.

Asked about conditions in Britain, the former home secretary said it was the feeling which depended on export trade that were the hardest hit by present conditions. He said the feeling was strong in Britain in favor of Germany being admitted to the League of Nations, it was felt that would help to ease the diplomatic situation and give better assurance of peace. Until that happened there would be little hope of betterment as regards economic conditions, he said.

Would Undertake

Another Arctic Trip

Captain Bernier at Seventy-four Is Still Vigorous

Quebec.—"I am still young and vigorous and as ready to start off again if I feel inclined as I was when I was a boy, but if I am judged by my age and have earned a pension, I hope the government will grant it to me."

Thus spoke the veteran explorer, Captain E. Bernier, commander of the Canadian Government auxiliary schooner, *Albatross*, when he was interviewed by the press on the eve of his departure for his next Arctic expedition.

Captain Bernier, who is in his 74th year, has just returned from a trip to northern waters undertaken at the request of the authorities at Ottawa. While on the coast of Greenland he suffered a bad fall when struck by a walrus, but made light of the accident, that resulted from the accident. However, he will be X-rayed. It is believed the voyage just completed by the *Albatross* was the last he would take with the veteran captain at the wheel.

Western Grain Port

Predicts Large Grain Movement Out Of Vancouver This Season

Vancouver, B.C.—The port of Vancouver will handle at least 65,000 or 70,000,000 bushels of export grain during the shipping season of 1925-26, according to a prediction made by Leslie H. Boyd, K.C., chairman of grain board of Canada.

Mr. Boyd said he was not in a position to give any statement officially, but from his general knowledge of conditions he thought Vancouver would see a very large movement.

France Can Use Wheat Flour

Paris.—France is to return to the use of all wheat flour as a result of the good harvest this year, and the law which made it obligatory, because of the poor harvest last year, to add five per cent. of rye to all the wheat flour used in France, is to be abrogated.

Will Study In Alberta

Montreal.—A party of 20 youths, conducted by Miss Ethel Nicholls, who will be here by the *Windsor* next week, "proceeded" to Alberta, where they will study Canadian agricultural methods.

Britain Wants Western Butter

London Importers Send Representative to Saskatchewan to Solicit Shipments

Regina.—Representing one of the largest importers of farm and dairy products in the United Kingdom, A. J. Gillespie, has arrived in Regina, S. C., the representative of a London firm to come to Saskatchewan in quest of butter for the English market. He is soliciting direct shipments from the Saskatchewan Co-operative Creameries and other firms instead of through speculative channels.

Mr. Gillespie said the improvement in Saskatchewan butter in recent years, and even in the last year, was "amazing" British importers. Western Canadian butter had been elevated to a position second only to that of New Zealand, a country which, for many years, had held first place in quality.

He believed the Canadian west would, and capture a very large share of the total imports to Great Britain, and expressed his belief that the dairy trade in the west would grow to vast proportions.

Would Abolish

Level Crossings

Attorney-General of Ontario Says This Is the Only Real Safeguard

Toronto.—Having in mind the terrible tragedy at Scarborough Junction, near here, when six persons lost their lives when an automobile in which they were riding was struck by a Canadian National freight. Hon. W. C. Nichol, attorney-general of Ontario, has stated that the abolition of level crossings is the only real safeguard to human life.

He refuses to entertain any thought of half-way measure such as compelling motorists to come to a stop at every level crossing, as suggested by an official of the Canadian National Railway.

BRITAIN TAKES STEPS TO CURB RED ACTIVITIES

London.—Police raided the headquarters of the Communist party in London and also on the London branch office and arrested six Communist officials. Numerous papers and publications were seized.

The Communist political bureau issued a statement, describing the incident as "the first step in the new strategy of the new class."

This, says the bureau, was foreseen, and it recalls the party's advice to form a workers' defense corps.

"The Communist party," it declares, "will not, and cannot be, smashed. Close the ranks, strengthen the party, continue to fight to the bitter end, against the coming capitalist offensive."

Communist activities in England during the past few months have gone far beyond the propaganda and industrial agitation stage. Attempt has been made to foment a revolt against the government and a large membership has been built up, particularly among the foreign population.

Against organized authority, police action commenced which was deemed necessary.

Talented French Artists Arrive in Canada

New company of talented French artists which Mr. J. A. Garvin has brought to Montreal from Paris for a season of French comedy, photographed upon their arrival in Montreal.

The company, composed of Europe on the Canadian Pacific steamship *Mellita* and remained in Quebec for a week or so before coming to Montreal to open the season. They are (left to right, front row) Mlle. Marcelle Gelin, M. Georges Colin, M. Jean Darré, M. Jean Martin and M. Paul Mauge, a local theatrical pair; (back row) M. René Marchand, M. Y. Viny, M. René Mollé, Mlle. Marthe Maréchal, Mlle. Marie Florkin and M. Adeline Fournier. Two members of the company, Mlle. Marguerite Courten-Lambert and Mlle. Jeanne d'Arcy were absent when the photograph was taken.

FRENCH VIEWS ON FUNDING OF WAR DEBT TO U.S.

Paris.—The French Government intends to read a counter-proposal to the United States relative to the funding of the debt to America, it was officially admitted at the ministry of finance.

The proposal brought back from Washington by the debt commission for a five-year "breathing spell" during which France would pay \$100,000,000 a year, still is being studied with no final decision in sight, the United Press was told.

However, the reported intention to make a counter-proposal is taken to mean that "the result of the Washington negotiations has already been rejected."

Secure Settlers For Canada

New Methods To Be Adopted By Office In Britain

London, Eng.—How interviews will be treated by the office, and the personal touch will be substituted for correspondence in order to secure settlers for Canada, was explained by W. E. Macdonald, Canadian director of European emigration. In an interview with a representative of the Morning Post, Mr. Walker stated that though the "bonding" system administered by those who go on the land now will have the way for the unemployed in England to find work in Canada.

The Post, in an editorial entitled "Mr. Walker's plan," regrets that some political and certain newspaper leaders in Canada believe that England's day is done and that the greater part of her population is existing on hand.

Annual Sheep and Swine Show

Will Be Held November Third; Fourth

Regina.—The annual sheep and swine show will be held here November 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1925. The show will be held at the Exhibition Association hall in the Stadium. The dressed poultry show will be held at the Exhibition Association hall in the Stadium. The dressed poultry show will be held at the Exhibition Association hall in the Stadium.

Professor A. C. Harman, director of the Agricultural College, will be the judge.

J. C. McKay, Macdonald, Man, Professor H. Wood, Manitoba Agricultural College, will judge sheep. L. Hancock, Winnipeg, and A. P. Porter, Langkask, will judge swine.

University Head On Culture

Victoria.—"Culture" which has no bearing upon life, is, in the opinion of the head of the University of British Columbia, a mere "fashion" and is a serious matter for Australia. British shipowners have declared the force of Fremantle and Perth "black" and the British shipowners have declared the shipowners' vessels "black," each side claiming the other is "black" and the exports from the continent have been seriously retarded.

Fire Hires For Production

Olympia.—A fire of recent fire from which west coast areas from Northern British Columbia to Southern Oregon last summer, this section will produce less than in many years.

The dense smoke and fire came at a time when most of the fur-bearing animals were reaching their young.

Urges Demand For Imperial-Made Goods

Lady Cowan Asks Canadian Women to Put Empire First

Ottawa.—That the women of Canada should foster the idea now so prevalent among the women of England of demanding Imperial-made goods, was the desire expressed by Lady Cowan, a well-known member of the British House of Commons, who is among the delegates to the Inter-parliamentary Union, who addressed a largely attended meeting at the Ottawa University Women's Club.

Lady Cowan, who has been the president of the British Women's Patriotic League for the last five years, told of the work the women were doing in England.

The league has for its motto: "Our Country First."

"I am an internationalist," the speaker stated, "but I am a patriot and a lover of my country first."

Women today can become anything they want, Lady Cowan said. There are unlimited possibilities of public service and there is an open door to any profession. It won't be long, the speaker predicted, before there may be a woman premier.

Sandow Dies In England

Was Professor of Physical Culture to King George

London.—Eugene Sandow, once hailed as "the world's strongest man," died suddenly Oct. 14 in London, where he had been on a lecture tour. He was a well-known physical culturist. It is believed that he died of the effects of a motor accident in which he was injured some years ago. His friend, Lord Strathmore, who he had preceded as "the world's strongest man" and who died in Berlin recently, Sandow was of German nationality. He was born in 1867 and is said to have been frail in his youth. Sandow was a great exponent of physical culture for the average man, and claimed anyone could become strong who understood his course of training. His activities in this direction were recognized in England in 1911 with his appointment by Royal Warrant as professor of physical culture to King George.

To Hold Conference On Seamen's Strike

Parties to Dispute Summoned to Meet in Australia

Melbourne, Australia.—In view of the improved shipping situation and the report of the report of the medical strike of British seamen, a conference of all the parties to the dispute for October 19 in Sydney. He stated the dispute exists in all the Australian ports and is a serious matter for Australia. British shipowners have declared the force of Fremantle and Perth "black" and the British shipowners have declared the shipowners' vessels "black," each side claiming the other is "black" and the exports from the continent have been seriously retarded.

After cruising about for a half hour, the *Albatross* landed its plane on the dirigible.

He was once more released and returned his role again, the R-23 continued its flight, and later returned to his mooring mast.

SECURITY PACT TO PREVENT FUTURE WARS IN EUROPE

secretary, who said that he and Sir Cecil Hardey, the English jurist, had placed their services at the disposal of the League of Nations in an endeavor to reach an agreement concerning Germany's eastern frontier.

Mr. Chamberlain was optimistic over the possibility of reaching an agreement with Germany and Poland together.

Locarno.—If France can secure suitable guarantees for her eastern frontier, the League of Nations will be in a position to secure a pact which would apparently make future wars in Europe impossible, but which would be effective in principle the greater opinion of the pact has been agreed upon, but there still remains to be ironed out satisfactory for Germany and France the question of guarantees for the integrity of Poland and Czechoslovakia.

There is optimism that a formal pact for this, in the nature of mutual guarantees under the League of Nations covenant, will be found.

The Polish problem, particularly the question of the Polish corridor to the sea, still troubles the conference, was the impression given by Right Hon. Austen Chamberlain, British foreign secretary.

Increasing Gold Output

Toronto.—If the July and August gold production in Ontario is maintained throughout the balance of the year, Ontario's gold output in 1925 will reach a total of \$30,000,000, compared with \$25,000,000 in 1924.

BRITAIN MAY CONSIDER LOANS TO AID MIGRATION

London.—The question of the British Government, which has loaned to the Dominions for the encouragement of migration will be considered at a special meeting of the Liverpool chamber of commerce.

The chairman of the transport committee of the Liverpool chamber of commerce has informed the chamber that in his opinion it would be of enormous advantage to the empire if the government allowed Canada, Australia, New Zealand and other dominions \$250,000,000 of interest for five years with the provision that the money should be repaid at the end of that period with five per cent. interest and a further five per cent. as a redemption fee, practically amounting to about two per cent. interest per year.

The chairman of the committee of the chamber of commerce is spending more than \$1,000,000 a year in payment of debts which have brought no benefit at all, he says.

Discovers Coral Island Group

Japanese Explorer's Find Not Described in Sea Charts

Tokyo.—The newspapers report that a group of more than ten coral islands, of total value which is estimated at \$1,000,000, have been discovered in the South Seas by a Japanese explorer, M. Inoué.

The Japanese Geographic Society has started a technical survey of the islands. It is said. They are situated about 200 sea miles off Midway Island. The islands are of volcanic origin and will be made public after the discovery is reported to the International Geographic Association, states M. Inoué.

These coral islands are not described in the sea charts, and the largest is reported to be some 100 miles in circumference. They are uninhabited.

Plane Released From Dirigible

Experiment Carried Out Successfully At Altitude of 2,000 Feet

Pullman.—An experiment in releasing an airplane from an airship while the airship was in flight was carried out on Monday the dirigible R-23 took to the air with a monoplane suspended from a trapeze beneath the hull.

Plotted by Lieutenant H. Lofting, chief test pilot, the monoplane was released at an altitude of about 2,000 feet and made a successful flight.

After cruising about for a half hour, the *Albatross* landed its plane on the dirigible.

He was once more released and returned his role again, the R-23 continued its flight, and later returned to his mooring mast.

Meteorite Weighs Seven Tons

Aberdeen.—The heaviest meteorite in the world has just arrived here from Greenland about the Danish astronomer, Dr. Knud Rasmussen, who has been in the Arctic region since 1913 and that they had been dragged to toward the coast on dog sleds since 1922.

Missionaries Sail For China

Toronto.—Delayed two months by conditions in China, a number of missionaries of the United Church of Canada have sailed from Vancouver for Shanghai to commence the long journey into the field in the Chinese province, West China. Their leader, T. Edgar Pownall, has been at Vancouver more than two months, awaiting permission to enter.

Grain Growers Meeting

Regina.—The annual meeting of the Saskatchewan Grain Growers' Association will be held in Saskatoon, probably during the third week in January. It was decided at a meeting held here of the executive of the S. G. G. A. and the women's section.

Ships Exercise Caution

St. Paul, Minn.—Fishes may develop stomach trouble, and jealousy may lead to acute heart disease, said a Canadian professor, in a study of the variety of Michigan, told the St. Paul Post-graduate Assembly of Physicians.

Will Fund War Debt

Burlington, Rumania.—The Rumanian newspaper announce that the Rumanian gold production in Rumania has reached a tentative agreement with the British Government for the funding of Rumania's \$25,000,000 war debt to Great Britain.

THURSDAY, OCT. 22, 1923.

NOTES AND COMMENT.

The political campaign nears its close without any real enthusiasm having been roused in this section of the country. The situation of the crop is so serious, with the exception of the small portion threshed, that all other matters sink into more or less insignificance, while the continued wet weather prevails. The season is getting so late that very little further delay in the threshing is a more serious matter for consideration than the complexion of the next government.

The Retail Trade Bureau of Canada has undertaken a campaign to have the federal Income Tax abolished on the ground that it is unfair and that it is being evaded by some while others, particularly those earning salaries, must pay the tax in full. While it is difficult to find any system of taxation which may be considered absolutely fair the Income and Sales Taxes seem to be the most objectionable of any of the methods used.

As an argument against the Income Tax the statement is made that men are taking their money out of business and investing it in war bonds that are not taxed, the result being that business depression and unemployment follows. Many people are of the opinion that internal loans have very much the same effect and divert capital from productive channels.

The Western News makes the statement that the heads of the Wheat Pool have urged members of the Pool to subscribe for that newspaper. That lingering hope that the Wheat Pool would be kept out of politics goes glimmering if the statement is true, as beyond question The News is the most prominent exponent of virulent partisanship in the Province.

While threshing has been in progress since Wednesday the weather appears far from settled, although hopes are entertained that there will be no further delay in threshing operations. This is the matter of highest importance in everyone's mind. The fact that the moisture is good for next year will not stand with the threshing undone.

The Profitable Feeder Steer

(Experimental Farms Note).

That there is good money in feeding steers of the right type has been demonstrated at the Dominion Experimental Farm at Scott. At this station during a period of eight years an average net profit of fifteen dollars and forty cents per head has been realized.

In order to realize a substantial profit in feeding and marketing, steers of recognized beef type are required.

Poor doing, unthrifty animals cost more to feed, spoil the appearance of

the lots as a whole, are difficult to dispose of, and obviously are a losing proposition to the owner. It is therefore, evident that when purchasing steers to place in the feed lot some experience is necessary in order to detect these undesirable individuals, and farmers who are not skilled buyers will usually find it more profitable to purchase steers through a reliable live stock commission firm. The losses incurred through ignorance of the market demands are appalling and the failure to give sufficient attention to the sorting of the steers into carload lots which are uniform as to breed, color, type, finish and age, contributes largely to these losses.

Both in this country and in the Old Country, the market shows a decided preference for the handy-weight butcher steer and the highest prices are paid for steers not exceeding 1300 pounds in weight. Steers of this description can be disposed of more readily and profitably as the smaller cuts of meat are preferred by the consuming public and there is less waste. The big steer, which the Great Britain trade terms the "carcase bullock," is not desired by the average butcher.

Care of Cuttings Trees and Shrubs

(Experimental Farms Notes).

Cuttings should be taken from healthy plants and not from parts which give an unhealthy appearance. Cuttings from trees such as willows, Russian and Northwestern poplar strike root from either old or young wood, while cuttings from most other trees strike root more readily and make better growth when taken from well-matured shoots of the current year.

Cuttings of willow, poplar and Tatarian honeysuckle as well as gooseberries and currants should be taken preferably in the fall; they may, however, be taken in the early spring before the buds burst. Cuttings should be from six to eight inches in length.

A pit dug before freeze-up is a convenient place to store over winter. When boards are placed over the pit the snow is kept out, thereby permitting of early spring planting.

Cuttings should be planted as early in the spring as possible. Planting at an angle of forty-five degrees and allowing one or two buds above ground has been found satisfactory, provided the soil has been well firmed around the cutting. During the planting process, the cuttings should not be allowed to dry out. A simple method of preventing drying-out is to carry cuttings in a pail of water when planting.

A good practice is to set the cuttings in a small plot in the autumn and to transplant to a permanent location the following spring. When this method is followed, the cuttings are set in the small plot in rows eighteen inches apart with six inch spacing in the row.

Live Stock Industry Is Prospering

Pasture and ensilage crops have been further benefitted by the rainfall experienced during the past month. Live stock conditions generally are

Dr. R. R. McIntyre DENTIST

714 Herald Block, - Calgary. Will visit Champion all day Monday each week. Appointments may be arranged at Moffatt's Hardware.

A Building AT A Bargain!

satisfactory. Although there has been change in prices a better feeling is noted in the cattle industry, and the basis for it appears to be that breeding herds and feeder stock have been reduced materially. It is expected that, with the plentiful supply of feed on hand, store cattle will be in strong demand this fall. Regarding the beef cattle industry The Canadian Countryman in recent issue has to say:

"The present low prices for beef cattle are the result of the stimulus given to the industry during the period of the war, and it is expected that a noticeable upward swing in prices will take place before very long. Just how the curve of ascending prices will move no one, of course, knows definitely, but it seems altogether probable that the swing in prices will be upward for the next seven or eight years. There is no doubt in our mind that farmers would be well advised to build up their herds now so as to get the full advantage of the more remunerative prices that can hardly fail to make their appearance in the next few years."

Slightly lower prices obtain for hogs and the trend appears to be downward, but they are still considerably higher than a year ago. The decline is stated to be partly seasonal, but is also attributed to the smaller demand for bacon from Great Britain, where the purchasing power of the people has decreased because of unemployment, although in this connection it is noted that large shipments of bacon are being exported to that quarter by Holland and Denmark. A large supply of lambs is available, but it is not expected that prices will go down. More attention is being given to sheep-raising than for some time, and it is reported that many ewe lambs are being retained on the farms.—The Monthly Commercial Letter from The Canadian Bank of Commerce.

The Chronicle

Local and General

For Sale—Six hole range. Apply to Mrs. T. Gill, next door to Ford Garage.

A second Chevrolet truck of which Frank Loyd is pilot is now in use in the coal business here.

Mr. and Mrs. Hammell, of Carstairs, and grandson, were the guests of Mr. and Mrs. Hammell this week.

According to authentic information the betting was even that threshing would begin on Tuesday of this week.

As a general rule the grain which has been exposed so long to rain and snow is said to have come through in much better shape than was anticipated.

J. M. Moffatt's new aerial provides more room for conjecture than anything that has happened here for a long time. Milt should have a printed explanation of the use of the various wires.

Senator Buchanan and Mrs. Nellie McClung will address a meeting in the interests of Jesse Gouge, Liberal candidate for Bow River, at Carmangay on Monday, Oct. 26th. This meeting will undoubtedly draw an unusually large crowd as both speakers are popular.

The picture show arrived long ago at a place where it could be termed an institution and the increasing popularity it is achieving is a tribute to the management. The class of pictures shown here compares very favorably with the cities on both sides of us.

This has been a life saving fall for the elevator men. Instead of the nervous wrecks we are accustomed to at this time of year connected with the grain market the sleek, rotund gentlemen on exhibition are a revelation of what good food and light work will do with even the poorest material.

Mrs. R. H. Curry is visiting relatives in Calgary for a few days.

The Misses Cowlin, of Lethbridge, are visiting their aunt, Mrs. D. Watkins.

There is no shortage of geese, ducks and chicken. We have a fine range of shells in 12, 16 and 20 gauge.—W. C. Hoskins.

Rev. J. and Mrs. Lee and Brian were at Barons on Tuesday, the guests of Rev. S. R. and Mrs. Hunt.

Mrs. U. G. Anderson attended the W. I. conference at Vulcan on Tuesday and gave a report of the Champion W. I. work for the year.

Ed. Ellison is making rapid progress towards complete recovery and expects to have the plaster cast removed from his injured ankle shortly.

The Long Louie restaurant is being redecorated with signs on the windows which will make a big improvement in appearances in that vicinity.

The Ladies' Aid will hold a bazaar sale in W. C. Hoskins' store on Saturday, Oct. 24, from 7 to 10 p. m. Members from A to L are requested to send donations.

The gross earnings of the Canadian National Railways for the week ending October 7, 1925, were \$5,788,613 as compared with \$4,882,363 for the same period of 1924, an increase of \$906,250 or 19 percent.

G. M. Campbell attended a meeting of the Retail Merchants' Association at Lethbridge on Wednesday, including a banquet in the evening in honor of the visit of the head of the organization in Canada.

The Ladies' Aid will meet on Thursday, Oct. 29, at the home of Mrs. J. O. Reid, who will be assisted by Mrs. W. Ulrich. Should the roads be impassible the meeting will be held at the Parsonage. Mrs. Lee and Mrs. Harper being hostesses.

**C. D. S. Dance
Drew Big Crowd**

The dance in McCullough's hall on Friday evening under L. D. S. auspices drew a large crowd and the event was particularly enjoyable. The local orchestra supplied the music to general satisfaction. Refreshments were served by the ladies of the church at midnight, after which dancing was continued until 2.30.

**Big Picture Show
For Junior Hockey**

The Champion Theatre has donated the returns from the great naval picture "Zeebrugge," which will be shown here on Tuesday and Wednesday, November 3rd and 4th, to the Junior Hockey club. The boys are selling the tickets for this show and are meeting with gratifying success, and the theatre should be crowded on both evenings.

**W. I. Giving
Hallowe'en Dance**

The Women's Institute has arranged for a novelty Hallowe'en dance to be given in McCullough's hall on Friday evening, Oct. 30th. The best of music will be supplied and everyone may rely on having a good time. Admission \$1.00 per couple, extra ladies 25c.

Jack rabbits seem as thick as ever. We have a good stock of 22 rifles and ammunition.—W. C. Hoskins.

Mrs. Crawford Sr. who has been on a visit to Mr. and Mrs. E. F. Crawford is now at Kirkcaldy.

Farm Land For Sale

S. W. 1 of Sec. 29; T. 15; R. 25; W. of 4th Mer. containing 161 acres more or less.

By public auction in front of the Post Office at Vulcan, on Saturday, the 24th day of October, 1925, at 4 o'clock p. m., by C. B. Schimp auctioneer.

The lands are situated in a well-irrigated and excellent farming district about thirteen miles from Vulcan and about the same distance from Champion and within one and a half miles of a school.

Buildings: House 12x24, barns 10x14, shed 12x16, stable 12x14, granary 18x20, granary 19x14. Also a good water supply from two wells. Approximately 113 acres have been broken and there are about 55 acres in summerfallow for 1926. The soil is chocolate loam clay sub-soil.

The property will be offered for sale at an upset price of \$2500.00 at which bidding will start.

Terms: 10 per cent cash—balance into Court in 60 days without interest. Standing conditions to apply. Action No. 24339 Supreme Court of Alberta.

Further particulars may be obtained from McLean, Patterson and Company, solicitors, McLean Block, Calgary, Alta.

Dated at Calgary, this 28th day of September, 1925.

A. G. A. CLOWES,
Clerk in Chambers.

Little Bow W.I.'s Annual Conference

(Published by request.)

The Little Bow constituency conference of the Alberta Women's Institute was held in Vulcan in place of Brant on Tuesday, Oct. 13. The meeting held in the I. O. O. F. Hall with Mrs. F. C. Alcock as chairman, opened by singing "Oh, Canada," also the "Doxology," afterwards repeating the club women's creed. Mrs. Alcock gave a short talk, with great interest on the older women not paying enough attention to the 'teen age girls.

Then the following reports were read: Eastway, by Mrs. Alcock; Vulcan, by Mrs. Schenk; Champion, by Mrs. U. G. Anderson; Carmangay, by Mrs. Wilson, after which short discussions followed. Good Deeds report was presented by Mrs. McManis. Golden Rule by Mrs. George Galbreath; Kirkcaldy, by Mrs. Alcock; Redland View, by Mrs. Doonee Brant; by Mrs. Kelley. Brant was the only institute which had money out on interest, so to speak, she brought \$500 worth of shares in the new community hall.

Mrs. Volsey, of Champion was appointed chairman of the resolution committee. Mrs. Lynch-Staunton of Lundre, the district director then gave a few words, after which adjournment for lunch was taken.

At 1:30 the afternoon session opened with community singing, after which the minutes of the last year's conference were read and approved. Mrs. J. Kelley of Brant, gave the address of welcome, which was replied to by Mrs. Schenk of Vulcan. Reports from the following branches were given: Barons, by Mrs. Lebow; Garden Prairie, by Mrs. Arnett; Garden Prairie girl's club, by Miss Dills. Miss Dills told of the great good the girl's club was doing, and of some of the work they did, among which was the making of strings of beads, and the club presented Mrs. Alcock with a lovely string of black beads of which she was very proud.

Mrs. Lynch-Staunton then gave a very interesting paper. She also brought greetings from the provincial president, Mrs. Hayek of Stronach, secretary, Mrs. A. H. Rogers of Fort Saskatchewan, and publicity convenor, Mrs. J. F. Price of Calgary. Mrs. Staunton strongly urged the paying of provincial and constituency funds. The first of every year, that the worry of that problem was over. She also advocated sending delegates to all the conventions, as when they are not sent, the institutes seem to lose the "bite that bind." Several musical numbers were given including vocal duet by Mrs. Robinson and Mrs. Dr. Ammon, also a piano solo by Miss Beulah Walker, and a reading by Miss Marion Lebow.

The following standing committees were elected:

Agriculture, Mrs. W. H. Miller of Carmangay; Child Welfare and Public Health, Mrs. Wilson of Carmangay; Education and Better Schools, Mrs. Robson of Vulcan; Household Economics, Mrs. Martin of Vulcan; Immigration, Mrs. Volsey, Champion; Legislation, Mrs. D. H. Galbraith of Vulcan; Canadianization, Mrs. J. Kelley of Brant.

After the election of committees, Mrs. Volsey of Champion made a short address on behalf of all the W. I.'s in the Little Bow constituency. She presented the convention Mrs. F. C. Alcock with a lovely club bag to show the love and esteem all have for her; Mrs. Alcock replied suitably. Mrs. Lynch-Staunton was also presented with a very pretty Bon Bon dish.

At the meeting last year, the Good Deeds W. I. offered a flag to W. I. which would send in the best report on Education and Better Schools. It was decided that Eastway W. I. won the flag, which was presented to the president of Eastway W. I. by Mrs. A. Alcock.

Mrs. Staunton was then asked to take the chair, while a constituency convenor was elected for the new year. Mrs. Alcock was nominated to be re-elected, and no other nominations were made, so she still remains where she was, as constituency convenor for Little Bow to the pleasure of all present.

We Aim to Excel In Values!

Quick Quaker Rolled Oats, per packet..... 40c
(China Ware Packets).
